Hello Michael,

I have no further comments on this modification. The EPA reserves the right to request additional information or actions if conditions should change or additional information should become available.

Hi Michael,

Please include estimated depth of hand digging attempt. Also include statement that samples will be evaluated and discussed to determine if additional sampling will need to be addressed during phase II.

I'm fine with the rest.

Mike

Mr. Cirian,

Please see the attached SAP Modification form summarizing our proposal to utilize hand tools to complete the last two soil borings within the South Percolation Ponds.

Note that we would like to do this sampling this week if you concur with our approach.
